FAVORITE PROJECTS

SOCIAL MEDIA BACKEND

This is a social media Back-End-Only application with minimal Front-End so that you can use it on your browser. You can:
- Create an account
- Create posts
- Reply to posts
- Reply to replies
- Send/Accept/Delete friend requests
- View friends' posts only

For this project I used:
- Express.js
- MongoDB
- EJS

TASK TRACKER
This is a Full Stack Application I created using Node.js, React.js, Express.js and MongoDB.

SALARY VISUALIZER
A Front-End application that shows the statistics of a company about its employees and their salary. Salary Visualizer is made with React and Styled-components

TECHNICAL SKILLS

Confident working with:
•JavaScript •Express.js •MongoDB • React • CSS • HTML • Node.js •Git and Version Control •Styled-components
Familiar with:
- C/C++

SOFT SKILLS

- Quick learner
- Enthusiastic about quality, design, and user experience
- Strong interpersonal and organizational skills
- Able to cooperate at all levels efficiently
- Strong sense of humor and easy to work with
